

## **NEW Max-50 – RFID Access Control Reader for IP-based Networks**

January 15<sup>th</sup>, 2012 . Toronto, Canada RFID Canada

RFID technology provider and Canadian distributor for FEIG ELECTRONIC is introducing a new IP based access control RFID reader . the Max 50

A feature of the Max 50 is that it can manage up to 9,000 users in stand-alone operation if there is no communication with the host. The Max 50 is a compact RFID smart card reader which can be mounted on a wall to suit room architecture.

The Max 50 supports Ethernet with AES encryption security.

### **About RFID Canada**

RFID Canada is a technology provider. Products include all Passive frequencies - Low (LF), High (HF) and Ultra High (UHF) as well as Active frequency. RFID Canada is the Canadian distributor for Texas Instruments, Feig Electronic and Agrident.

RFID Canada provides the vital foundation to any RFID-based system and has been involved in successfully implementing over 200 systems globally.

RFID Canada, with its network of partners, has successfully implemented applications such as Animal Identification, Document Tracking, Traceability, Asset Tracking, Work-in-Process, Stock Replenishment, Personal Identification and Sporting Events in a wide range of industries including Agriculture, Manufacturing, Transportation, Supply Chain and Distribution, Retail, Healthcare, Pharmaceutical, Libraries, Government and many others.

### **About FEIG ELECTRONIC GmbH**

FEIG ELECTRONIC is a German manufacturer and world leading producer of RFID readers. OBID® readers are in use worldwide - they are developed and marketed worldwide by FEIG ELECTRONIC.

OBID® readers are developed according to international standards in close cooperation with all leading manufacturers of transponder chips, and support all major types of transponder.

OBID® readers are available for all common frequencies as LF, HF and UHF. [www.feig.de](http://www.feig.de)
