

## The World's Leading Manufacturer of:

- RFID Portals and Housing Structures
- RFID Mounting Hardware and Components
- RFID Plug 'n Play Units
- RFID Installation Services

**Gnome Portals™** come in two heights- 63" Brushed Aluminum Rails and 54" Wood Rails, to cover a range of applications. The Reader Cabinets include two antenna brackets (but can fit up to 4 antennas – depending on type), reader plate, lightweight white ABS cover (can be screened with advertisement), and reader power supply bracket. Unit comes with openings for ¾" EMT conduit.

## Gnome Portals™

### Information:

- Plug and Play: Easy integration of the latest back-end systems, all wiring, connectors, and cabling is in place
- Styles and Configurations available for Retail Stores, Stockroom, dock doors, personnel and interior doors, aisle positions, and conveyors
- Customization available
- Flexible Antenna Positioning
- Removable Reader Plate
- Assembles in 30 minutes
- Forklift-Resistant: Fashionable construction for the "Retail Look"
- Installation available

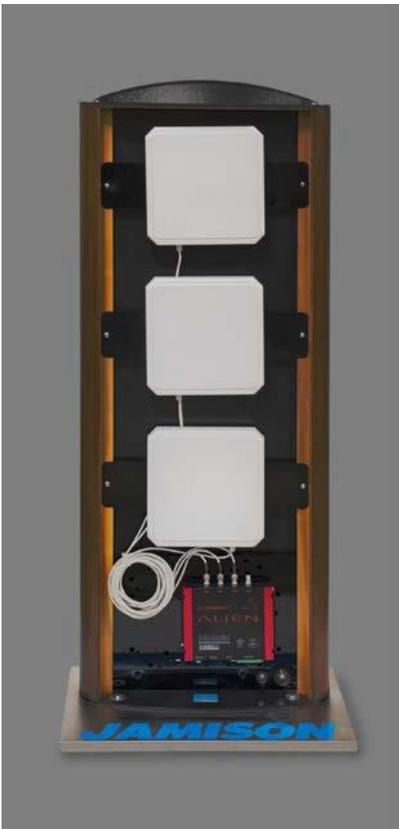

### Specifications:

- Standard Construction 18-gauge steel
- Finishes Available in Brushed lack or White Powder-Coated steel
- Dimensions:
  - Height: 63" (Brushed Aluminum) or 54" (Wood), Width: 20", Depth: 4"
- Weight: Reader Unit = 40 lbs. Antenna Unit = 30 lbs.
- Reading Height - Up to 70" with Aluminum or 60" with Wood
- Power: Standard 110 – 125 A/C 60 HC
- LAN: Standard Ethernet Port, RJ45 Connector, 802.11 optional
- Covers: ABS, Flat Back, Curved Front

## Gnome Portals™

**Gnome Portals™** can be configured with a Light Stack and Buzzer. This allows your RFID system to signal store personnel to various success and error conditions- both visually and audibly. Standard Red, Amber, Green, and alarm function.

**Jamison RFID Portals™ ROCK!**  
Jamison RFID is the World Leader, and can always be counted on to- Define, Design, Develop and Deliver RFID Portals for multiple applications.

### Features

#### Hardware Independent

#### Full Antenna Movement

#### Rugged Design

#### Custom Sizing

#### Easy Installation

#### Easy Integration

### Benefits

The portal is designed to accommodate most RFID hardware and antenna designs/configurations giving the user the most scalable and flexible solution.

Uses a simple antenna mount that allows for vertical movement anywhere along the chassis, dramatically improving read rates of challenging items.

Powder-coated steel mounts tied into Aluminum or Wood construction provides a fashionable structure.

Although the portal is designed to fit most storefronts and back office areas, the structure can be customized for specific applications by our engineering staff.

The portal can be installed in under 30 minutes.

The portal takes advantage of the latest RFID integration systems to allow easy integration into back-end system infrastructures.

### About Jamison RFID

Since 1906, Jamison Door Company has pioneered the industrial door industry with innovative designs, unsurpassed product quality, and outstanding customer service. Jamison's RFID Division produces the world's largest variety of RFID (Radio Frequency IDentification) portals, housing structures, mounting components, and custom designed enclosures, that help track products using RFID during the manufacturing process and throughout the entire supply chain.

Jamison services over 6000 warehouse, retail, and supply chain customers from its Headquarters in Hagerstown, MD. Jamison also offers fully-staffed engineering, customer service, and shipping departments. Jamison currently has four North American manufacturing plants; in Maryland (2), Montana, and Mexico.
