

The World's Leading Manufacturer of:

- RFID Portals and Housing Structures
- RFID Mounting Hardware and Components
- RFID Plug 'n Play Units
- RFID Installation Services

Hawk® RFID Portals

Hawk RFID Portals include four High Gain Circular Polarity antennas, and the RFID Reader of your choice. The unit can be configured in manufacturing- or out in the field to provide maximum integration flexibility.

Hawk® RFID Portal

Information:

- The Jamison RFID Hawk™ is a small wall mount RFID unit for collecting tag data only, without additional alarms and electronics. At 39" long and 12" wide, the Hawk is lightweight and mounts quickly and easily. Simply plug in your Ethernet line and you are reading tags.
- Plug and Play: Easy integration of the latest back-end systems, all wiring, connectors, and cabling are in place
- Flexible Antenna Positioning (15 Degree Adjustability)
- Easily Removable Cover
- Out of the Box "Ready To Use"
- Installation available
- Optional 90-Degree wall or door frame mounting bracket
- Customization available (Colors, RFID Readers)

Specifications:

- Chassis- 18-gauge powder-coated steel
- Cover- White ABS
- Dimensions-
 - Height: 39"
 - Width: 12"
 - Depth: 3.3"
- Weight- 14 lbs.
- Power- Power over Ethernet (PoE) IEEE 802.3af
- LAN- Standard Ethernet Port, RJ45 Connector
- Communications- 10/100BASE-T Ethernet cable
- Cabling Options- Cableways and Guides included
- Warranty- 1 Year

JAMISON | RFID

Hawk RFID Portal:

Hawk can include your choice of most popular RFID Readers and 4 High Gain Antennas.

Jamison RFID Portals ROCK!!!

Jamison RFID is the World Leader, and can always be counted on to- Define, Design, Develop and Deliver RFID Portals for multiple applications.

Hawk® RFID Portal

Hawk Features

Hardware Independent

Antenna Movement

Sleek Design

Easy Installation

Easy Integration

Hawk Benefits

The Hawk portal is designed to accommodate most RFID reader configurations giving the user the most scalable and flexible solution.

Uses an antenna mount that allows for 15 Degree directional movement, creating the most optimal Read zones.

The Hawk design is made for indoor Office / Healthcare types of applications, in whereas a robust Read Zone is needed, yet something small and functional is optimal.

The portal can be installed in under 30 minutes.

The portal takes advantage of the latest RFID systems to allow easy integration into back-end system infrastructures.

About Jamison RFID

Since 1906, Jamison Door Company has pioneered the industrial door industry with innovative designs, unsurpassed product quality, and outstanding customer service. Jamison's RFID Division produces the world's largest variety of RFID (Radio Frequency IDentification) portals, housing structures, mounting components, and custom designed enclosures, that help track products using RFID during the manufacturing process and throughout the entire supply chain.

Jamison services over 6000 warehouse, retail, and supply chain customers from its Headquarters in Hagerstown, MD. Jamison also offers fully-staffed engineering, customer service, and shipping departments. Jamison currently has four North American manufacturing plants; in Maryland (2), Montana, and Mexico.
